

Find out all you need to know about the new "Maestro" from Boema

Learn why orchestrating the perfect cup of coffee has never been easier!

BOEMA

Australian made coffee machines since 1956

Maestro - the machine

When you purchase a Boema Maestro, it will not only consistently produce quality espresso for your customers, it will also provide you with years of reliability and peak performance from a machine that is Australian made. It has been built using the latest technology in commercial design and construction and has operational features to help your business run efficiently.

The Boema Maestro is the only espresso machine on the market that puts the Barista in control. With features such as an L.E.D. illuminated work area, programmable wash cycles and revolutionary toggle steam arms, your staff will be able to run your coffee bar area with competence and speed while always producing the perfect cup of coffee.

BOEMA Maestro 3 group or 2 group features include:

- **Stylish** modern design
- Water filter supplied
- **Programmable** wash cycle
- **Durable** stainless steel construction
- **Hygienic** easy to clean surfaces
- **Revolutionary designed** toggle steam arm
- Toggles for quick and effortless steam activation
- **Improved** frothing nozzles that provide consistent and smooth milk production
- Full electronic operation and **service monitoring** from easy to read LCD display
- Work areas **illuminated** by L.E.D lights.

Optional extra heat exchange for supplying water at the correct temperature without boiling, for making tea.

Accessories available:

- Fully automatic grinder • Milk jugs • Chocolate shakers
- Sugar containers • Beverage layering spoons • Coffee waste knock containers • Milk temperatures thermometers.

3 GROUP	20amp	4800	525	515	890	87kg

Boema is unlike many of the foreign-based coffee companies and is a leader in the Australian coffee industry because:

Australian made

- Boema has been manufacturing traditional commercial coffee machines since 1956 and is privately owned and operated by the Gibbs family

Reliable service

- Boema provide reliable and prompt local, state and international delivery of machine orders and spare parts
- Machine manufacturing and pre-installation is quality controlled
- Boema provide excellent after sales service, training and demonstrations
- Spare parts are available for your machine's lifetime and new improved parts are easily adaptable
- Boema's equipment, service and importantly, spare parts are competitively priced

Stylish design

- Boema machines are stylishly designed and built using commercial grade materials and parts

High performance

- Boema's range of high performance machines are robust, affordable and easy to service
- All Boema machines can be purchased outright or leased.

Other products available

- Grinders
- Dripolators
- Filters
- Coffee beans
