

# Meiko M-iClean References

*"We recently purchased a new Meiko M-iClean glasswasher for our bar here at Rigoni's Bistro. Our old one was getting run down and not quite up to scratch. We spent around 4 weeks looking at different options and different price points. After a lot of investigation we decided to go with the M-iClean as the polish free idea really appeals to us! All I can say is that I wish we had done it sooner as since installing it we have saved over 40 hours per week off our front of house labour cost, halved our polishing cloths usage, staff are finishing earlier at night so the penalties are not there that used to be, and we are not breaking anywhere near the number of glasses that we used to, win win win! It polishes our glasses, cutlery and side plates like a boss!"*

**Tony Bailey, Rigoni's Bistro.**

*"I am a big advocate for the Meiko M-iClean glasswasher. We have had one installed at East End Cellars for a couple of years now and it has increased our efficiency and dramatically reduced our labour costs. It really does eliminate the need for polishing glasses and cutlery, which is so important for businesses like ours. I would happily recommend the Meiko M-iClean glasswasher and Total Commercial Equipment."*

**Michael Andrewartha, East End Cellars.**

*"We purchased a Meiko M-iClean glasswasher from Total Commercial Equipment in November 2017 after a recommendation from Michael Andrewartha at East End Cellars. As promised the glasswasher has performed to our expectations and due to the excellent results, we since purchased another 2 M-iClean's for the venue. Stemware breakages and staff's time has significantly reduced as the M-iClean polishes 25 glasses every 2 minutes. We would not hesitate to recommend the Meiko M-iClean glass washer and pass through dishwasher to other businesses."*

**Maria Maglieri, Serafino McLaren Vale.**

*"We recently got a M-iClean installed at Mother Vine. We are a wine bar, so cleanliness of glassware is imperative for our business. The M-iClean is a great product and has not only eliminated time spent polishing glasses, which frees up staff to spend more time with customers, it also results in one less staff member on a busy night. The breakage numbers have gone right down due to no polishing required (which is when most breakages happen). I would happily recommend it to any other business similar to Mother Vine."*

**Patrick Madden, Mother Vine.**

*"The M-iClean glasswasher has been an incredibly popular addition to our cellar door team. From the fast cycle and quiet operation, through to the GiO reverse osmosis module which eliminates the need for manual drying and polishing; which has dramatically streamlined the productivity of our staff - as well as ensuring that all of our glassware is sparkling clean, every wash."*

**Hamish and Kate Laurie, Deviation Road Wines.**
