

The Competition Hates our Guts

COIN OPERATED TOP LOAD WASHER

Primus have been manufacturing commercial laundry equipment for more than 100 years. Our top load washers are built with quality commercial components that deliver durability, dependability and longevity. It features a large 8kg load capacity, that is easy for your guests to operate. *You will love our guts too.*

TOUCH PAD CONTROL

allows for easy selection of hot, warm and cold water, and has several different cycle combinations to maximise fabric care.

CURVED FOUR-VANE AGITATOR

delivers a 210°C agitation stroke, for superb washing results.

STAINLESS STEEL WASH TUB for longevity.

TRIPLE-LIP SEAL for enhanced water seal of wash tub.

CONTEMPORARY COLOUR that won't fade, mark easily or yellow.

HEAVY-DUTY MOTOR

1/2 hp (0.37kW), tub-mounted, two-speed motor for years of reliable performance, provides high 710RPM spin speed.

RUGGED SUSPENSION

with exclusive six "V" mounted springs provides superior handling of unbalanced loads, reduces vibration and noise, and minimises machine wear and tear.

EASY-TO-READ DIGITAL DISPLAY

makes programming the machine a breeze and is easy to use, displaying vend price, cycle time and cycle status.

INTEGRATED METER CASE

features superior meter case-to-top attachment for theft/vandalism protection.

LARGE CAPACITY

coin box as standard.

COMMERCIAL GRADE porcelain enamel top and lid for optimum durability.

PORCELAIN COATED STEEL

outer drain tub, resists mold and mildew.

EVERSMOOTH TRANSMISSION

is all metal and has only six moving parts for less maintenance and wear.

GALVANISED STEEL base, cabinet, front panel and meter case are pre-coated and corrosion-resistant for long-lasting durability.

POLYPROPYLENE PUMP

attaches directly to the motor and can be conveniently accessed from the front of the machine.

START CAPACITOR reduces amperage draw for more efficient operation.

AUTOMATIC BALANCE SYSTEM allows lateral motion of the washer module to improve performance and reduce noise.
