What will it do for me ?

Create more traffic to your store and build great relations with your loyal customers through the great features included in the FED's POS system, these include;

LOYALTY CARD

Is a powerful way to grow sales and retain customers. You and your staff will appreciate fast loyalty access to process customer transactions over the counter or on the phone. You can even design your own branded loyalty card and reward program which Boost both loyalty and revenue by 10 to 25%.

SMS MARKETING

Gets your business connected with customers and target them like never before! SMS marketing connects you to your clients through their purchase history, spend, date of birth and more. Send out bulk SMS updates, offers and start increasing revenue by 5 to 15%.

EMAIL MARKETING

Lets your business run regular promotional offers and encourages repeat business through important POS data collected. Our clients are experiencing an average 2% response which can equate up to 12% increase in revenue. This is the benefit of customer loyalty and an easy way to increase exposure and revenue.

ONLINE ORDER

Start converting customer web orders to your POS. Start making your business more convenient by providing customers with an option to place orders online for pick-up, dine-in or catering. Statistic show that over 17% of web traffic is purchasing online and an integral part of any modern day business.
